

Dissertation Logic and Flow
John Latham (c) 2006

Conclusions - Ch5

- Recommendations
- Conclusions
- Findings discussed
- Limitations and Assumptions

Analysis - Ch4

- Data are explained
- Analyzed data are presented
 - Charts/graphs
 - Tables
- Each question/hypothesis addressed

Methodology - Ch3

- Data Analysis Procedures
 - Specific tests
 - Analysis techniques
- Data Collection
 - Interviews
 - Survey administration
- Instrumentation
 - Interview Guide
 - Survey
 - Observation Check-sheet
 - How it was developed
- Population & Sample
- Design of the Study
 - Described
 - Defended
- Description of Methodology

Introduction - Ch1

- Intro to Problem
 - Background
 - Statement of Problem/OFI
- Purpose
 - Create Knowledge
 - Help Solve the Problem
- Research Question(s)
 - Answer will fulfill purpose
 - Hypotheses? = Predicted Answer
- Significance
- Nature of Study
 - Qualitative/Quantitative/Mixed
 - Theory building/testing
- Assumptions and Limitations
- Definition of Terms
- Organization of the remainder of study

Literature Review - Ch2

- Theoretical Framework
 - Introduction
 - Foundation
 - Conceptual Framework Diagram
- Existing Knowledge
 - Variables & Relationships
 - Objective and Balanced
- Gaps in our knowledge
